

RankPro 2016/2017
TOP World leading universities
Region: Europe
TOP 200

According to the methodology, the rating of an institution of higher education consists of three components, which would allow obtaining a full picture of the level of the institution:

- Academic possibilities of a university - academic ranking;
- Communicability and information availability on a University homepage – ranking by BC-Index;
- National and international reputation of the university – public ranking.

Experts: members of the International Council of Scientists ICS.

The interrelation of these three rating components in the overall result is determined as a result of a survey conducted among members of the International Council of Scientists ICS - professors of universities of different types from more than 40 countries.

As a result of the survey between the members of the International Council of Scientists, conducted under the GWC program to compile RankPro 2016/2017, the following values of the contribution of each component in the overall ranking of a university have been obtained:

- Academic ranking – 50%
- Ranking by BC-Index – 25%
- Public ranking – 25%

The top leading universities of the world were defined as a general result of adding the contribution of each component of the rating under the GWC program. Universities are classified in terms of ratings obtained in each of the three components RankPro 2016/2017 into two class “a” and “b” with subgroups “+” and “-”, which reflects their place in the overall ranking component.

Europe rank	University	Country	RankPro normalized to 100	Academic World class	BC-Index World class	Public World class
1	ETH Zürich-Swiss Federal Institute of Technology Zurich	Switzerland	80.967	a+	a+	a+
2	École Normale Supérieure (ENS)	France	78.233	a+	b-	a+
3	University of Oxford	United Kingdom	76.341	a-	a-	a+
4	University of Cambridge	United Kingdom	75.526	a-	a+	a+
5	Ecole Normale Supérieure de Lyon	France	73.070	a+	b	a
6	Imperial College London	United Kingdom	69.016	a	a+	a+
