

RankPro 2016/2017 TOP World leading universities

Academic rankings

Academic ranking is calculated using an algorithm taking into account the most important relationship of the university academic field. Next basic relations are used:

Main indicators (total scope 85%):

- Number of graduate students to the number of undergraduate students;
- Total number of students to the number of academic staff and the number of professors;
- Number of foreign students to the total number of students.

Additional indicators (total scope 15%):

- Number of bachelor degree programs to the number of master and doctoral degree programs.
- Number of professors to the total number of students;
- Number of publications to the number of academic staff (learning and research).

Calculations take into account importance (weight) of each parameter (average values) that in turn is being assessed by 10 point scale. Average values of parameters is determined as a result of a survey conducted among members of the International Council of Scientists ICS.

World classification by class:

- a+** – universities with the value of the academic ranking of at least 60 % of the maximum;
- a** – universities with the value of the academic ranking of at least 45 % of the maximum;
- a-** – universities with the value of the academic ranking of at least 35 % of the maximum;
- b+** – universities with the value of the academic ranking of at least 30 % of the maximum;
- b** – universities with the value of the academic ranking of at least 20 % of the maximum;
- b-** – universities with the value of the academic ranking of less than 20 % of the maximum;

For classification all academic rankings were normalized. 100 % - corresponds to the maximum value of academic ranking.

World rank	University	Country	Academic index	World class	Share in RankPro
1	École Normale Supérieure (ENS)	France	65.562	a+	50.000
2	Ecole normale supérieure Paris-Saclay (ENS Paris-Saclay)	France	57.370	a+	43.752
3	Ecole Normale Supérieure de Lyon	France	56.276	a+	42.918
